# **3 NEW TOOLS from Jacquard!**

## **Refillable Markers - Reusable Zip Ties - Bottles + Plastic Tips**

Healdsburg, CA (September 19, 2016)

The old adage "An artist is only as good as his or her tools" may be debatable, but having access to good tools certainly never hurt. Artists are always on the lookout for new tools, and at Jacquard, we love to pioneer and innovate on artists' behalf. Whether it be a new light-sensitive dye that allows artists to print photographs onto fabric ([SolarFast](#)) or [reusable zip ties](#) that tie dyers can use over and over again and never throw away, we are committed to expanding the boundaries of what is possible, reducing waste, creating shortcuts, and improving and developing new tools and materials to benefit and enhance all sorts of creativity. Providing artists with the tools they need is our raison d'être, so we are thrilled to share three new items, now available from Jacquard Products.

Tie dyers love how easily they can bind fabric tightly when they use zip ties. But zip ties are typically single-use, and no one likes throwing away that much plastic, least of all environmentally-conscious tie-dyeing folks like us. That is why Jacquard is now offering Reusable Zip Ties. Use as many as you want guilt free, because you'll never throw a zip tie away again!

These heavy duty, releasable cable ties can be used over and over again. Easily cut to size or daisy-chained together, they're not just for tie dyers! You might be surprised how many uses there are for zip ties.
