## Liquid Metal that goes on almost ANYTHING! *Introducing Rich Gold & Silver Piñata Colors*

Healdsburg, CA (August 2012) - Jacquard Products is proud to announce two new Piñata Colors of a very different nature.

### Did you ever want:

- a flowable metallic ink that you can apply to most surfaces?
- an easy alternative to (time consuming!) gold leafing?
- an undercoat of real, reflective metal?
- to make building blocks or action figures look like they were cast in real gold?
- to frame a photograph in silver?
- to make your shoes shine like gold?
- to turn your pennies into golden coins?
- to turn your nest eggs into golden eggs?

### *Now you can!*

Piñata Rich Gold and Piñata Silver are liquid alcohol inks formulated with real metal. The metal particles are tiny, and they lie flat, which produces a highly reflective, smooth metal surface. They can be applied to almost anything: paper, plastic, wood, glass (for decorative purposes only), canvas, metal, foil, ceramic, rubber, vinyl...you name it! The new Piñata metallic colors are perfect for scrapbookers and paper artists whenever a true metallic is desired, as well as for oil painters, acrylic painters, window painters, sculptors and crafters of all kinds. There is no surface like a metal surface, and Jacquard is extremely excited to announce our first truly metallic ink.

### **Piñata - Rich Gold**

Item JFC1032 ▪ 1 fl oz/14 ml bottle ▪ \$3.59 MSRP  
Item JFC3032 ▪ 4 fl oz/118 ml bottle ▪ \$10.49 MSRP
