

Jacquard Professional Screen Printing Ink BULK SYSTEM

	Yellow 600
	Orange 601
	Red 602
	Violet 603
	Blue 604
	Green 605
	Brown 606
	Black 607
	Process Yellow 608
	Process Magenta 609
	Process Cyan 610

These professional-quality, highly permanent, water-based inks are for porous and non-porous surfaces. A technological breakthrough, open time on the screen has been greatly extended, giving printers more time to work with individual colors without in-screen drying.

Jacquard's bulk system allows printers both ultimate control of their colors and ultimate economy. Printers mix our concentrated dispersed pigments into a base (transparent or opaque) at whatever load desired. This allows for an infinite range of both hue and color intensity.

FEATURES

- Open time on the screen is greatly extended compared to other water-based inks. This allows for longer print runs and greater flexibility, as the risk of in-screen drying is much reduced.
- Use on porous and non-porous surfaces such as: fabric, vinyl, metal, leather, paper, wood, plastic and canvas.
- Won't wrinkle or buckle paper when printing art prints or posters.
- Non-scuffable, semi-gloss finish.
- Easy clean up with soap & water.
- Suited for commercial applications.
- Archival and lightfast, with excellent coverage and resolution
- Washable and drycleanable on natural and synthetic fabrics.
- Air cures after 72 hours. Heat setting on fabrics is recommended for extra durability.

We also offer several additives for our bulk system, including JSI Discharge Additive and JSI Puff Additive.

36 of our standard color inks are also available in bulk sizes (quarts and gallons).

DISPERSED PIGMENT CONCENTRATES

Item#: JSI3
quart: 32 fl oz/.95 L

JSI Clear Base

JSI4100 1 gal/3.79 L
JSI5100 5 gal/18.93 L

JSI Opaque Base

JSI4200 1 gal/3.79 L
JSI5200 5 gal/18.93 L
