Healdsburg, CA (February 14, 2017)

K \ Uh]g' A U\]WTouch?

Magic Touch is cardboard panel with paper-backed silk permanently adhered to the surface. It is a prepared silk surface, in other words, that allows artists to experience the unique joys of silk painting without having to stretch, prep or handle fabric in

any way, making silk painting easy and accessible to everyone!

Kids and adults alike, no matter what their skill level or inclinations, will have great results with these two new class packs. There is always a great sense of pride and satisfaction with this project, which combines the gratification of coloring with the meditative ease of silk painting. The process of painting the colors on silk and watching them flow to the lines, creating a stained glass window effect, is nothing short of enchanting.
