## Dimensional Paint Doubles as Adhesive *New Lumiere 3D from Jacquard Products*

Healdsburg, CA (April 2012) - Jacquard Products' dazzling Lumiere colors have been re-formulated to create a new, two-in-one product that acts as both a super strong adhesive AND a metallic, 3-dimensional paint! [Lumiere 3D](#) is an amazingly strong bead glue that works marvelously on fabric and can be used to firmly attach "jewels" to almost any surface. It is also a beautiful, dimensional paint, perfect for embellishing and writing on: T-shirts, greeting cards, scrapbooks, ribbon, wood, gourds, leather and more. Lumiere 3D can be used directly from the bottle or with the addition of fine line, plastic tips. It is completely washable after drying for 72 hours. The true color develops when dry.

Lumiere 3D comes in 24 rich, metallic/pearlescent colors, 8 of which are available in individual blister packs with three different fine line tips. Jacquard also offers a new, gorgeous Lumiere 3D display.

Lumiere 3D: blister pack, open stock bottles and metal display (photos not to scale)
