

Effective Date: 4/28/09

1. Product Identification

Product Name: Eucalyptus Oil

CAS Number: 8000-48-4

FEMA number: 2466

2. Physical Data

Appearance: Colorless to pale yellow liquid, having a camphoraceous odor.

Boiling Point: N/A

Specific Gravity: .905-.925

Vapor Density: N/A

Solubility in Water: Insoluble

3. Fire and Explosive Data

Flash Point: 109 degrees F (tag closed cup)

Extinguishing Media: Carbon dioxide, dry chemical or universal type foam applied according to manufacturer's techniques.

Special Fire Fighting Procedures/Unusual Fire or Explosive Hazards: Wear self-contained breathing apparatus and complete personal protective equipment. Closed containers may build up pressure at elevated temperatures. If possible, containers should be cooled with a water spray.

4. Effects of Over-Exposure

Swallowing: Harmful if swallowed.

Breathing: May cause respiratory tract irritation.

Eye Effects: May cause eye irritation by direct contact or from fumes.

Skin Effects: Prolonged skin contact may lead to irritation and dermatitis.

5. Emergency and First Aid Procedures

Eye Contact: Flush eyes with water for at least 15 minutes. If irritation persists, contact a doctor.

Skin Contact: Wash skin with soap and plenty of water. Remove contaminated clothing and wash before wearing again.

Ingestion: If swallowed, drink milk or water and contact a doctor immediately.

Inhalation: Remove victim to fresh air.

6. Employee Protection Recommendations

Eye Protection: Chemical safety goggles recommended.

Skin Protection: Chemical resistant gloves recommended.

Respiratory Protection: In well ventilated areas, respiratory protection is not normally required. In poorly ventilated areas use NIOSH respirator.

Ventilation: Provide adequate ventilation using a mechanical exhaust fan.

Other: Eye wash station and safety shower should be easily accessible.

7. Reactivity Data

Stability: Stable. Avoid heat, sparks and open flames.

Polymerization: Will not occur.

Incompatibility (materials to avoid): Avoid contact with strong alkalies and oxidizing agents.

Hazardous Decomposition Products: Burning can produce carbon dioxide and/or carbon monoxide.

8. Spill or Leak Procedures

In Case Material is Released/Spilled: For small spills: Cover with a non-combustible material and remove to an approved disposal container. Wash area with soap and water. For large spills: Avoid sources of ignition. Contain spilled material. Cover with a non-combustible material and remove to an approved disposal container. Avoid inhalation of vapors. If in a confined area, NIOSH approved respiratory protection maybe required. Wash area with soap and water.

Waste Disposal Method: Incinerate, bury in approved manner or dispose of using any procedure which is in conformance with pertinent federal, state or local regulations.

Notice to Reader

The information contained in this MSDS is based on data from sources considered to be reliable but Rupert, Gibbon & Spider Inc. does not guarantee the accuracy or completeness thereof. Rupert, Gibbon & Spider Inc. urges each customer or recipient of this MSDS to study it carefully to become aware of and understand the hazards associated with this product. The reader should consider consulting reference works or individuals who are experts in ventilation, toxicology or fire and understand the data in this MSDS.
