A NEW Medium from Jacquard!

Clear Extender Airbrush Medium

Healdsburg, CA (October 18, 2016)

Create your own airbrush colors!

4 fl oz/118 ml (Item JAB2150) - \$5.99 MSRP

<u>Clear Extender Airbrush Medium</u> is a non-pigmented binder system that dries clear. Like Jacquard Airbrush Colors, it has excellent adhesion on a variety of surfaces, superior flexibility that resists cracking & peeling on fabric & leather, and is unsurpassed for ease of spraying.

Add Clear Extender Airbrush Medium to Jacquard <u>Airbrush</u> <u>Colors</u> to increase transparency, dilute color and extend the mileage of the paint without affecting viscosity or compromising its adhesive properties.

OR use for a variety of purposes:

 Thin Jacquard and other thick acrylic paints to decrease viscosity for spraying.

- Use as a textile medium to modify artist or craft acrylics to improve washfastness and durability when applied to fabric.
- Use as a protective topcoat on any paintable surface.
- Use as a base for mixing custom colors from dispersed or powdered pigments such as Pearl Ex.

Turn any acrylic paint into an airbrush color!

Jacquard now sponsors two professional teams of celebrity sneaker painters:

<u>@JacquardUSA</u> and <u>@JacquardTeamEUOfficial</u>. Sneaker painters love Jacquard paints because they are durable, flexible, resist cracking & peeling and adhere well to many different surfaces, from leather to spandex.

Jacquard <u>Airbrush Colors</u> are particular favorites among sneaker painters because they are the only airbrush colors available with these unique attributes.

With the new <u>Clear Extender Airbrush Medium</u>, Jacquard is giving sneaker artists and airbrushers a powerful new tool that opens up a world of possibilities. Now artists can create their own airbrush colors from any pigment or acrylic they like!

Work in progress by <a><u>@PeteKoh:</u> commission for Pittsburgh Steelers star Antonio Brown
