Two New Sets Join Jacquard's Popular Product Lines!

Whether you're an experienced artist looking for an inspiring palette or a beginner ready to try a new medium, the **NEW Neopaque Sneaker Series Set** and **Procion MX 13-Color Set** from Jacquard offer a variety of colors all in one place!

The **NEW Neopaque Sneaker Series Set** includes 8 highly-requested "factory colors" that are perfect for restoring classic sneakers and re-creating iconic colorways.

Jacquard's **Neopaque** paints are the most versatile colors available for footwear. With unparalleled coverage, durability and permanence on surfaces from fabric to leather to vinyl, they hold up to wear and washing better than any other paint on the market.

The **NEW Procion MX 13-Color Set** includes the 13 most essential colors of dyes, 2 bags of Soda Ash Dye Fixer and thorough instructions – everything necessary for a dye party or project!

Procion MX cold water, fiber-reactive dye is the most vivid dye available for cellulose fibers such as: cotton, linen, hemp and rayon. It is virtually the only dye that can be used without heat, so it is the go-to for tie dyeing, batik, ice-dyeing, hand-painting and printing, and other "backyard" dyeing techniques.

NEW & IMPROVED!

Branded & Better-Sealing Lids

Our new branded lids not only look great, with an embossed Jacquard logo, they also offer an important packaging upgrade: an inner gasket seal!

The gasket seal (inside the new lids) is a vast improvement over the previous pressure and heat seals.

This built-in feature ensures that products re-seal with each lid closure, resulting in an extended product shelf life. Moving away from pressure and heat seals also means Jacquard's lids are now 100% recyclable!

Look for the new and improved branded lids on the following product lines:
